

wish a huge thank-you to everyone who helped to make our wedding day so special. We will remember it always and hope this will be a...

Hello, and many thanks for choosing a photo e-album from byrd1uk. Please take a few seconds to read the following information about the viewing of your photo e-album.

To view the photo e-album file, simply double click on the icon with the left hand mouse button. Some computers may ask for your permission to open the file.

Once opened, you will be presented with a screen like the one below with your photo e-album in the middle and some controls at the top and bottom of the screen which are explained in the image below.

The main feature of your e-album is that it is an interactive page-turning book, which means that you can turn pages just like you would in real life - except you use the left hand mouse button instead of your hand. If you move the cursor around the edge of the page, you will see that the page will begin to lift up and a left hand mouse click will fully turn the page for you. Please note that the corner of the cover (i.e. first page) will not lift up as you hover the cursor over it as this is designed to represent a hard-back cover. Please click on the right hand edge of the page to open your e-album.

The screenshot shows the photo e-album viewer interface. At the top, there is a toolbar with icons for zooming, printing, and exiting. Red arrows point to these icons with labels: 'Zoom to actual size', 'Zoom to fit on screen', 'Zoom out', 'Set quality to high or low', 'Print current page', and 'Exit'. The main area displays two photo pages. The left page shows a beach scene, and the right page shows a family. Red boxes with arrows point to the left and right edges of the pages, with text: 'click in this area with the left-hand mouse button to turn the page backwards' and 'click in this area with the left-hand mouse button to turn the page forwards'. At the bottom, there is another toolbar with navigation icons. Red arrows point to these icons with labels: 'Go to front cover', 'Go to previous page', 'goto page', 'shows current page numbers', 'Go to next page', and 'Go to back cover'.
